Principal's Message

In October, we practiced fire and earthquake drills. We excelled at both of these. However, when we conduct drills there is always more structure and supervision than possible in an actual situation. For example, if a fire started during lunch, few of our children would be with their teacher. Because we never know when we might have a fire, earthquake, or unwelcome intruder; we teach our students the principles for action and decision making. I believe knowledge is power and a sense of control alleviates anxiety.

In school-wide discussions, we talk about three basic principles I believe they can remember: HIDE (securely), FLEE (until you are completely away from any chance of the threat), and FIGHT (when all else fails in the face of the threat). The idea of a threat is scary, but I believe we need to empower students for their emotional benefit and physical safety, so they can respond if such a tragic event ever came to our campus. We are also in the process of developing a reunification plan for students and parents if ever needed.

Pirates and Brave Girls and Lost Boys, OH MY! Who will prevail - Captain Hook and his posse of villainous pirates? Peter Pan and his ragtag band of renegades? Or Tiger Lily and her valiant crew of Brave Girls? 51 students have been working hard to prepare a spectacular show - come and see on November 17!
